

I listen to KLOVE radio at 107.1 and thoroughly enjoy it. I am a mom of 2 girls and have a daycare with 2 boys. I am able to have the radio on without having to worry about what the children are listening to. Children enjoy music and they all enjoy being able to dance to the music. If this radio station were bumped off the air there would not be a radio station for my children to listen to worry free. This station also keeps me informed of world and spiritual events and news happening in my area and abroad. I know that my church community would be affected by the change by not having that spiritual daily encouragement. Anyone who doesn't know Jesus might also come across this station and be encouraged by the music and announcers. This is the only station that I know I can count on when I travel since it is a nationwide station. I & my family would definately miss this station.
